MEETING AGENDA

06.30 - 06.40 PM
Chairs’ welcome and Italian Young Investigators’ abstracts introduction
D. Richman, G. Silvestri

06.40 - 08.30 PM
Oral Presentations of the best selected abstracts

- INI-resistance dynamics from 2007 to 2017 in Italian clinical isolates
D. Armenia - Tor Vergata University of Rome - MENTORS F. Ceccherini-Silberstein, M. Santoro

- Quantification of CD64: a predictive biomarker for progression to active tuberculosis
C. Ceriani - ASST Ovest Milanese, Legnano (MI) - MENTOR P. Clerici

- Impact of HBCAB+ on advanced liver fibrosis development in HIV-HBV infected patients
V. Malagnino - Tor Vergata University of Rome - MENTOR L. Sarmini

- Metabolomic profiling of HIV patients with and without HIV-associated dementia
A. Mastrangelo - Vita-Salute San Raffaele University, Milan - MENTOR P. Cinque

- HCV late relapse in patients with directly acting antiviral-related SVR 12
C. Minichini - Luigi Vanvitelli, University of Naples - MENTOR N. Coppola

- Modulation of gut microbiota improves mucosal permeability in HIV+ patients
C. Pinacchio - Sapienza University of Rome - MENTOR G. d’Ettorre

- Genotypic and phenotypic susceptibility to fostemsavir in multidrug-resistant HIV-1
F. Saladini - University of Siena - MENTOR M. Zazzi

- Time to undetectable viral load achievement after ART start and risk of mortality
V. Spagnuolo - Vita-Salute San Raffaele University, Milan - MENTOR A. Castagna

- Increased SAMHD1 correlates with ISGs in HIV-1-infected patients
M. Statzu - University of Rome - MENTOR C. Scagnolari

- Alzheimer’s dementia cerebrospinal fluid biomarkers in HIV-positive patients on cART
M. Trufina - University of Turin - MENTOR A. Calcagno

- Relapse of symptomatic CSF HIV escape upon previously optimized cART regimen changes
F. Turrini - IRCCS San Raffaele Hospital, Milan - MENTOR P. Cinque

08.30 PM
Chairs’ Comments and Conclusions
D. Richman, G. Silvestri
